

Product Name : S119-8
Cat. No. : PC-35387
CAS No. : 443639-96-1
Molecular Formula : C₂₃H₂₄N₂O
Molecular Weight : 344.458
Target : Influenza Virus
Solubility :

Biological Activity

S119-8 (Influenza inhibitor S119-8) is a novel broad spectrum inhibitor of influenza virus replication (IC₅₀=1.43 nM) by targeting the viral Nucleoprotein (NP), with no detectable cytotoxicity (CC₅₀>50 μM); also shows activity against multiple influenza B viruses and an oseltamivir-resistant influenza A virus, does not inhibit a non-influenza virus, VSV; exhibits synergistic combined with in vitro viral inhibition assays.
