

Product Name : VB124
Cat. No. : PC-38048
CAS No. : 2230186-18-0
Molecular Formula : C₂₃H₂₃ClN₂O₄
Molecular Weight : 426.89
Target : Monocarboxylate Transporter (MCT)
Solubility : 10 mM in DMSO

Biological Activity

VB124 is a selective, highly potent **MCT4** inhibitor, blocks lactate import (IC₅₀ =8.6 nM) and export (IC₅₀=19 nM) in MDA-MB-231 cells.

VB124 is highly selective for MCT4 over MCT1, showing very little MCT1 inhibitory activity (IC₅₀=24 μM) in MCT1-expressing BT20 cells.

VB124 prevents and reverses hypertrophy in cardiomyocytes, prevents the increased flux from glucose into pyruvate and intra- and extracellular lactate observed in PE- and ISO-treated cardiomyocytes.

VB124 replenishes mitochondrial pyruvate flux, improves mitochondrial membrane potential and mitigates cytosolic ROS.

VB124 prevents cardiac hypertrophy in mice.
