

**Product Name** : SR-717  
**Cat. No.** : PC-38087  
**CAS No.** : 2375421-09-1  
**Molecular Formula** : C<sub>15</sub>H<sub>8</sub>F<sub>2</sub>LiN<sub>5</sub>O<sub>3</sub>  
**Molecular Weight** : 351.198  
**Target** : STING  
**Solubility** : 10 mM in DMSO

## Biological Activity

SR-717 (SR717) is a non-nucleotide, small-molecule **STING** agonist, demonstrates broad interspecies and interallelic specificity with EC50 of 2.1 uM and 2.2 uM in ISG-THP1 (WT) and ISG-THP1 cGAS KO (cGAS KO) cell lines.

SR-717 functions as a direct cGAMP mimetic that induces the same "closed" conformation of STING.

SR-717 displays antitumor activity, promotes the activation of CD8+ T, natural killer, and dendritic cells in relevant tissues, and facilitates antigen cross-priming.

SR-717 induces the expression of clinically relevant targets, including PD-L1, in a STING-dependent manner.
