

Product Name : PTC-596
Cat. No. : PC-60486
CAS No. : 1610964-64-1
Molecular Formula : C₁₉H₁₃F₅N₆
Molecular Weight : 420.347
Target : BMI-1
Solubility : 10 mM in DMSO

Biological Activity

PTC-596 (Unesbulin, PTC596) is a novel, orally active, small molecule inhibitor of **BMI-1** that accelerates BMI-1 degradation, inhibits AML cells growth with IC₅₀ of <100 nM.

PTC-596 is a direct **microtubule** polymerization inhibitor.

PTC-596 reduces total BMI-1 protein levels by 87% and 61% in MOLM-13 and OCI-AML3 cells at 100 nM, induces apoptosis and reduces the levels of ubiquitinated histone H2A.

PTC-596 downregulates MCL-1 and induces p53-independent mitochondrial apoptosis in acute myeloid leukemia progenitor cells.
