

**Product Name** : A-967079  
**Cat. No.** : PC-70051  
**CAS No.** : 1170613-55-4  
**Molecular Formula** : C<sub>12</sub>H<sub>14</sub>FNO  
**Molecular Weight** : 207.24  
**Target** : TRP Channel  
**Solubility** : 10 mM in DMSO

### Biological Activity

A-967079 (A 967079) is a potent, selective **TRPA1** channel blocker with IC<sub>50</sub> of 51 nM and 101 nM for hTRPA1 and rTRPA1, respectively.

A-967079 displays >1,000-fold selective over other TRP channels, and is >150-fold selective over 75 other ion channels, enzymes, and G-protein-coupled receptors.

A-967079 exhibits analgesic efficacy in allyl isothiocyanate-induced nocifensive response and osteoarthritic pain in rats (ED<sub>50</sub>=23.2 mg/kg), attenuates cold allodynia produced by nerve injury but does not alter noxious cold sensation in naive animals.

A-967079 is orally bioavailable.
