

**Product Name** : IMT1  
**Cat. No.** : PC-72916  
**CAS No.** : 2304621-31-4  
**Molecular Formula** : C<sub>21</sub>H<sub>21</sub>NO<sub>4</sub>  
**Molecular Weight** : 351.402  
**Target** : Other Targets  
**Solubility** : 10 mM in DMSO

### Biological Activity

IMT1 (LDC195943) is a first-in-class specific inhibitor of mitochondrial transcription that target the human **mitochondrial RNA polymerase (POLRMT)**.

IMT1 binds to an allosteric binding site near the active centre cleft of POLRMT.

IMT1 efficiently impairs mtDNA transcription in a reconstituted recombinant system and cause a dose-dependent inhibition of mtDNA expression and OXPHOS in cell lines.

IMT1 demonstrates anti-tumour effects against the growth of cancer cells and the persistence of therapy-resistant cancer stem cells.
